

**SIEMENS GAMESA RENEWABLE ENERGY, S.A.
SIGNIFICANT EVENT**

As per section 17 of the Regulation (EU) No. 596/2014, on market abuse and section 228 of the restated text of the Securities Market Law approved by the Royal Legislative Decree 4/2015, of 23 October (*texto refundido de la Ley del Mercado de Valores aprobado por el Real Decreto Legislativo 4/2015, de 23 de octubre*) and related provisions, the Company announces the following statement:

Siemens Gamesa Renewable Energy, S.A. (Siemens Gamesa or the Company), through its fully owned subsidiary Adwen France SAS, plans to deliver its D8 offshore wind turbine of 8MW in two projects off the French coasts, namely *Dieppe-Le Tréport* and *Yeu-Noirmoutier*, for a total capacity of almost one gigawatt. These two projects were awarded to Areva prior to the effectiveness of the ADWEN joint venture with Siemens Gamesa (then Gamesa Corporación Tecnológica, S.A.). The direct drive wind turbine will replace Adwen's AD 8 model after Siemens Gamesa decision to focus its sales efforts on one 8MW platform. As a result, the manufacturing of the AD 8 model will be discontinued while further developments of the technology will be part of the company's comprehensive product portfolio review.

According to the confirmation received from *Eoliennes en Mer Dieppe Le Tréport* and *Eoliennes en Mer Iles d'Yeu et de Noirmoutier*, owners of these two projects, switch to the D8 platform as the technical solution for these two projects has been approved by the French Minister for the Ecological Transition (*Ministre de la Transition écologique et solidaire*) after review by the Energy Regulation Commission (*Commission de Régulation de l'énergie*).

Zamudio (Vizcaya), September 19th, 2017

Markus Tacke
Chief Executive Officer
