2. INFORMATION AND COMMUNICATION CHANNELS

2.1 National Securities Market Commission and other bodies

One of the Company's essential information channels for shareholders and markets is the National Securities Market Commission (*Comisión Nacional del Mercado de Valores*) ("**CNMV**"), as well as the channels established by any other foreign supervisory authorities and bodies, with the information that is sent to these entities immediately being publicly disseminated via a publication of significant events on their websites, which are simultaneously included on the Company's website.

2.2 Corporate website

In addition to the CNMV, another essential official communication channel between the Company and shareholders and markets is its corporate website (www.siemensgamesa.com), which offers a specific space dedicated to Shareholders and Investors and is continuously updated, favouring immediate publication thereof and subsequent access in order for transparency to be the priority value that shapes relations between the Company and shareholders, markets and the general public.

Whenever possible, the information that the Company provides via its corporate website is published simultaneously in Spanish and English in order to facilitate consultation by foreign investors, with the Spanish-language version prevailing in the event of a discrepancy.

After sending the Company's economic/financial, institutional and general information to the CNMV whenever required, said economic/financial information is disseminated to regional, national and international financial analysts, media and information agencies.

Specifically, the Company announces meetings with analysts and investors sufficiently in advance, stating the date and time when it is planned to hold the meeting as well as any technical means (for example, videoconference or webcast) via which any interested party may follow it live.

The supporting documentation for the meeting is also made available via the corporate website prior to the commencement thereof, and a recording of the meeting is made available to shareholders for a period of one month.

The Company also aims to ensure that General Meetings of Shareholders are partly or wholly disseminated through social media. For such purposes, it may publish the main news from the event online in real time, post photographs of the meeting to Company channels live and share presentations on a website.

2.4 Internal coordination for the dissemination of news likely to contain significant information

In order to ensure that the dissemination of news likely to be deemed significant for the market occurs transparently, symmetrically and in accordance with the provisions of law and the Corporate Governance Regulations, the Company has established the following internal coordination rules:

All of the foregoing must be understood to be without prejudice to the Company's strict respect for the principle of equal treatment of all shareholders who are in identical conditions and not affected by conflicts of interest.

Additionally, the Institutional Investors Relations inbox is dedicated to receiving requests from financial analysts and institutional investors wishing to obtain information on the Company, for which purpose an email address (IRSG@siemensgamesa.com) is made available thereto. However, requests from private investors shall be answered via the Shareholders' Office (info_accionista@siemensgamesa.com).
