

RecyclableBlade

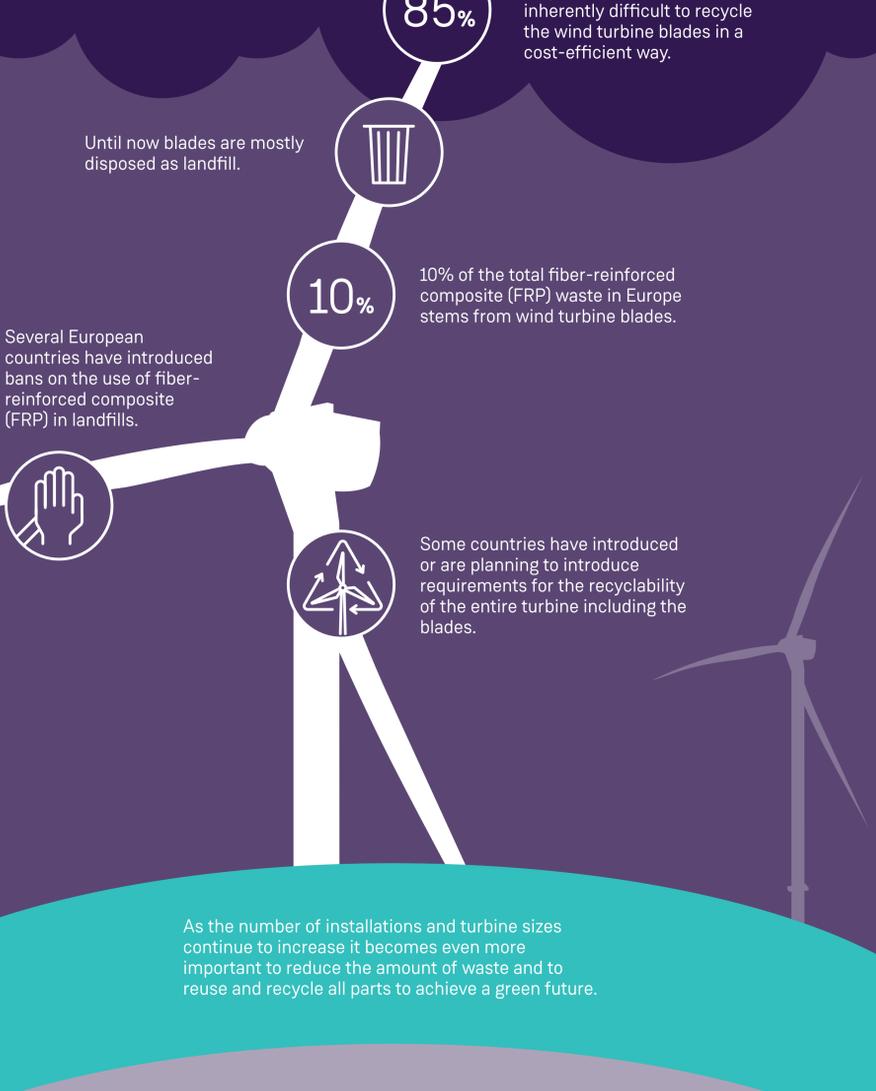

Taking responsibility. Blade by blade.

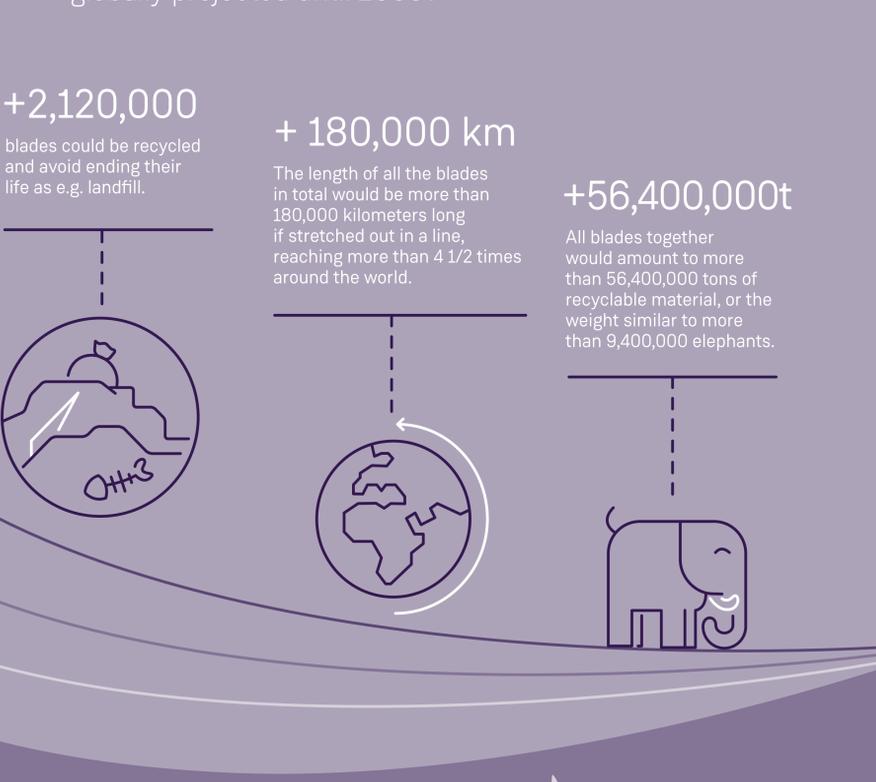

With the RecyclableBlade, Siemens Gamesa is leading the way to a sustainable future. For the first time in the industry we are able to separate and recycle the blade materials to be used in new applications.

This is a major step towards achieving 100% recyclability of our turbines.

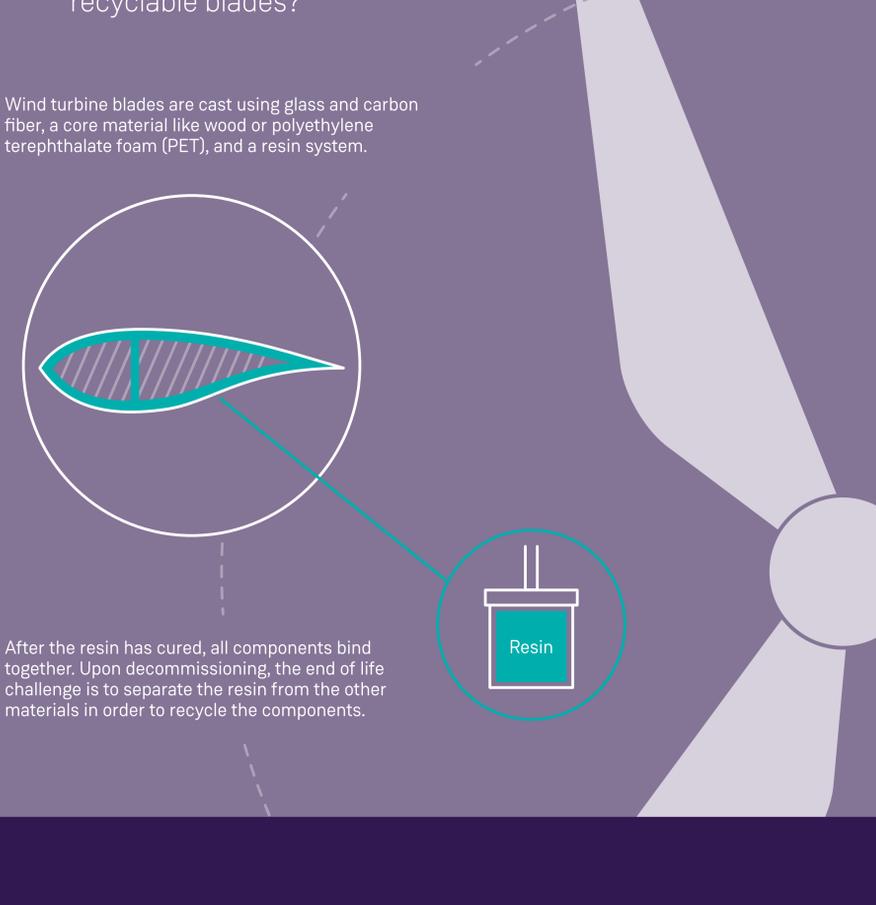

1 Why do we need the RecyclableBlade?

2 Imagine what would happen if we apply the RecyclableBlade to all new projects globally projected until 2050?

3 What are the challenges in producing recyclable blades?

4 The RecyclableBlade New recyclable resin - same technology.
