**POLICY OF REMUNERATION OF DIRECTORS OF
SIEMENS GAMESA RENEWABLE ENERGY, S.A. 2019-2021**

1. Introduction

This document sets forth the Policy of Remuneration of Directors of SIEMENS GAMESA RENEWABLE ENERGY, S.A. (“Siemens Gamesa” or the “Company”) approved by the shareholders at the 2019 General Meeting of Shareholders as a separate item on the Agenda to replace the Policy of Remuneration of Directors approved by the shareholders at the General Meeting of Shareholders held on 20 June 2017, including the amendments that the Company’s Board of Directors has resolved to propose to the shareholders at the Company’s 2020 General Meeting of Shareholders.

In relation to the procedure for approval of said Policy, subsection two of section 529 novodecies of the Corporate Enterprises Act (Ley de Sociedades de Capital or “LSC”) establishes that the proposed remuneration policy for a board of directors must be reasoned and must be accompanied by a specific report from the appointments and remuneration committee.

The Policy of Remuneration of Directors (the “remuneration policy” or the “policy of remuneration of directors”) shall apply to the following financial years: 1 October 2018 to 30 September 2019; 1 October 2019 to 30 September 2020; and 1 October 2020 to 30 September 2021. The reasoned report of the Appointments and Remuneration Committee (the “ARC” or the “Committee”) is attached hereto.

Both documents are made available to the shareholders on the Company’s website as from the call to the General Meeting of Shareholders to be held on July 22 and July 23, 2020, on first and second call, respectively, in accordance with the provisions of subsection two of section 529 novodecies of the LSC.

- This policy of remuneration of directors contains the following sections:
- Principles of the remuneration policy.
- Duties assumed by the Appointments and Remuneration Committee.
- Policy of remuneration of directors in their capacity as such.
- Policy of remuneration of executive directors.
- Policy of remuneration applicable to new directors.
- Quantitative limit of director remuneration.
- Effective period of the remuneration policy.

2. Principles of the remuneration policy

The commitment of the members of the Board of Directors and senior managers of Siemens Gamesa is essential for the successful fulfilment of the Company’s strategy, and with this objective the ARC prepares and proposes to the Company’s Board of Directors (the “Board of Directors” or the “Board”) the policy of remuneration and the remuneration practices that apply to the members of the Board of Directors.

The remuneration of the members of Siemens Gamesa’s Board of Directors is determined taking into consideration the provisions of: (i) the law applicable to corporate enterprises, specifically the LSC; (ii) article 45 of the By-Laws; (iii) article 29 of the Regulations of the Board of Directors of the Company; (iv) the resolutions adopted by the shareholders at the General Meeting of Shareholders; and (v) market practices in entities that are comparable by size, activity, complexity of business and geographic distribution of operations. This analysis normally relies on the support of outside consultants.

The remuneration system distinguishes between directors acting in their capacity as such from those performing executive duties within the Company.

The following general principles underpin the policy of remuneration of directors:

	Executive directors	Non-executive directors
Balance and prudence	•	•
Alignment with practices required by shareholders and investors	•	•
Transparency	•	•
Competitiveness of remuneration policy in terms of both structure and overall amount, in order to attract, motivate and retain key professionals	•	•
Alignment with the Company’s strategic objectives	•	•
Alignment with the remuneration established by comparable companies (external equity)	•	•
Remuneration policies and practices guaranteeing non-discrimination on grounds of sex, age, culture, religion or race (internal equity).	•	•
Relationship with effective dedication to the position.	•	•
Link to responsibility and performance of duties as directors.	•	•
Maintenance of a reasonable balance among the various components of fixed remuneration (short-term) and variable remuneration (annual and long-term), reflecting an appropriate assumption of risks combined with the achievement of defined objectives linked to the creation of sustainable value	•	
Absence of variable remuneration components in order to secure full independence with respect to the remuneration of		•

executive directors and of senior management

Remuneration offering an incentive without the amount thereof affecting their independence, taking the form of a fixed monthly allowance and an attendance fee for the non-executive directors

The above principles are consistent with Siemens Gamesa’s corporate governance policy, published on the corporate website.

Said remuneration principles also comply with the general provisions for corporate enterprises established in the LSC and are in line with the principles and recommendations relating to director remuneration set forth in the Good Governance Code of Listed Companies published by the National Securities Market Commission (Comisión Nacional del Mercado de Valores), in terms of their fit with the size and importance of the company, its financial condition, comparability, profitability and sustainability, and in terms of not encouraging an excessive assumption of risks or rewarding unfavourable results.

The participation of the ARC in the decision-making process with respect to the determination, application and review of the Policy of Remuneration is summarised below:

4. Policy of remuneration of directors in their capacity as such

The key elements of the policy of remuneration of directors in their capacity as such are broken down below.

In accordance with the provisions of article 45.3 of the By-Laws and section 217 of the LSC, the shareholders at the General Meeting of Shareholders held on 8 May 2015 approved the remuneration corresponding to the directors in their capacity as such, pursuant to the remuneration criteria and items set forth below and within the maximum limit of three (3) million euros. Said limit, which shall remain in effect until the shareholders at the General Meeting of Shareholders resolve to amend it, is in any case a maximum limit; it is for the Board of Directors to distribute the amount thereof among the items established and among the directors, in the form, at the time and in the proportion that it determines in view of the position held by each director on the Board of Directors, the duties and responsibilities assigned to the director, membership on committees of the Board of Directors and other objective circumstances that it deems relevant.

Pursuant to the provisions of the By-Laws and the Regulations of the Board of Directors, the aforementioned remuneration is compatible with and independent of that established for members of the Board of Directors who perform executive duties, which is not subject to the quantitative limit mentioned above. However, this remuneration policy does not include the possibility of the CEO receiving any amount for the items described in Table 1 below.

The members of the Board of Directors have the ability to waive collection of the items of remuneration described above.

Directors, in their capacity as such, may receive, as part of their fixed remuneration, shares of the Company, which may be delivered annually or at the end of the director's term of office, said delivery being in any case subject to the shares being held until cessation in office as directors, by application of the provisions of the CNMV's Good Governance Code. In any case, and in compliance with the requirements set forth in section 219 of the LSC, the delivery of the shares shall require a corresponding resolution of the shareholders acting at a General Meeting of Shareholders, which must include the maximum number of shares that may be assigned in each financial year to this remuneration system, the value of any shares taken as a reference and the duration of the remuneration system. The amount allocated to the share remuneration system shall in any case be included within the maximum amount of remuneration of the directors in their capacity as such, which is set at three (3) million euros, approved by the shareholders at the General Meeting of Shareholders, or any amount approved by the shareholders at subsequent General Meetings of Shareholders.

Additionally, directors may receive the premiums paid by the Company corresponding to policies purchased from insurance companies for the coverage of death and disability benefits. The sum insured for each director amounts to 220,000 euros pursuant to the terms and conditions of the policy.

The Company has also contracted civil liability insurance for all its directors (including executive directors) on customary market conditions and in proportion to the circumstances of the Company.

The policy of remuneration of directors in their capacity as such:

1. Does not provide for the provision of loans, advances or guarantees created by the Company in favour of the non-executive members of the Board of Directors.
2. Does not provide for the possibility of including contributions to pension-related benefit systems.
3. Does not establish compensation for non-executive directors for their collective supervisory and decision-making duties in relation to the termination of their relationship with the Company due to their status as non-executive directors, or the granting of additional remuneration other than that included above.

5. Policy of remuneration of executive directors

The only director who currently has executive duties within the Company is the CEO.

The policy of remuneration of the CEO of Siemens Gamesa contemplates the following remuneration system.

In this case, information shall be provided regarding the increase applied and the reasons therefor in the corresponding Annual Director Remuneration Report, which will be submitted to a binding vote by the shareholders at the General Meeting of Shareholders.</p> <p>Even if the update occurs on the above-described terms, the ARC must always provide reasons therefor.</p>	<p>The fixed remuneration is established in accordance with responsibility and leadership within the organisation and in line with the remuneration paid on the market at comparable companies.</p> <p>For the performance of executive duties, the Company pays the CEO the amount corresponding to Social Security payments.</p>

In addition to the foregoing, the Board of Directors may decide to implement new long-term incentive plans that include the CEO among their participants. In this regard, during the effective period of this remuneration policy, the Board of Directors may approve a plan that succeeds the Long-Term Incentive Plan 2018-2020, or the start-up of a new incentive plan with other characteristics. In any case, the participation of the CEO in any long-term incentive plan that includes the delivery of shares or options on shares, or remuneration linked to the value of the shares, shall require a resolution of the shareholders acting at a General Meeting of Shareholders, pursuant to the provisions of section 219 of the LSC.

The remuneration that the CEO will receive pursuant to this policy shall be compatible with and independent of the remuneration pending payment that the CEO may have as a result of his previous contractual relationship with Siemens AG and that, if any, will entail no cost for Siemens Gamesa.

5.2 Remunerative mix for the CEO

The CEO has a fully flexible variable remuneration system that responds appropriately to the results achieved. The relative importance of the CEO's variable remuneration means that depending on the CEO's individual performance and level of achievement of the objectives established for accrual thereof, the combined annual variable remuneration and medium- and long-term variable remuneration may be greater than the fixed components of remuneration.

5.3 Ex-post control of long-term variable remuneration of executive directors

The ARC shall have the power to propose to the Board of Directors the cancellation or return of the payment of the beneficiary's multi-year variable remuneration in circumstances showing that the variable remuneration has accrued or been paid based on inaccurate or erroneous information or data, or where internal corporate rules or applicable law are subsequently proven to have been breached.

The above may specifically apply upon the occurrence of any of the following circumstances:

- a) Regulatory sanctions or judicial convictions on grounds attributable to the director.
- b) Serious breach of internal codes of conduct or policies approved by the Company.
- c) Any other circumstances resulting in a subsequent adjustment of the parameters taken into consideration in the initial evaluation of the CEO's percentage achievement of the objective.
- d) Any other situation that entails an infringement of mandatory rules of the Company.

The ARC may propose to the Board of Directors that adjustments be made to the elements, criteria, thresholds and limits of multi-year variable remuneration in view of exceptional circumstances due to extraordinary internal or external factors or events. The details of and rationale for said adjustments shall be included in the corresponding Annual Director Remuneration Report.

5.4 Contractual terms and conditions for the CEO

The contract governing the performance of the CEO’s duties and responsibilities is commercial and permanent in nature and includes the clauses that it is customary practice to include in this type of contract.

The main severance, exclusivity and non-compete clauses in the aforementioned CEO’s contract are described in summary form below, in two tables:

Table 4. Exclusivity and post-contractual non-compete

Implementation	
Confidentiality	The Regulations of the Board of Directors establish the duty of directors to observe the confidentiality obligation arising from the duty of loyalty established under the LSC, observing the rules of conduct determined by the LSC and by the Corporate Governance Rules. The CEO is subject to this duty of confidentiality both during the term of his contract and after termination thereof.
Post-contractual non-compete	<p>The post-contractual non-compete agreement means that after termination of the contract and for a period of one (1) year after said termination for any reason, the CEO may not provide services, whether directly or indirectly, on his own behalf or for a third party, by himself or through any third party, to Spanish or foreign companies that represent effective, real or potential competition with the companies of the Siemens Gamesa Group. In compensation, Siemens Gamesa undertakes to pay the CEO an amount equal to one (1) year's Fixed Remuneration in cash, payable 50% on termination of the contract with the Company and the remaining 50% six (6) months after termination.</p> <p>In his capacity as a director of Siemens Gamesa, the CEO also has a non-compete obligation to the Company, on the terms that said obligation of the Company's directors is governed by the LSC and the Regulations of the Board of Directors.</p>
Exclusivity	The professional relationship is exclusive unless the Board of Directors expressly approves otherwise having assessed exceptional cases.

6. Policy of remuneration applicable to new executive directors

The remuneration system described above for the CEO shall apply to any director who joins the Board of Directors to perform executive duties during the effective period of this remuneration policy.

Table 2 of this remuneration policy describes the elements to consider in designing and establishing the remuneration system for new executive directors. For these purposes, after hearing the ARC's recommendation, the Board of Directors may establish different remuneration for new executive directors based on the Company's interest; in this case, it shall particularly take into account the person's remuneration level before joining the Company, the duties and responsibilities assigned thereto, his/her professional experience, market remuneration for the position and any other factors that it believes appropriate to take into account, which shall be duly reflected in the corresponding contract to be signed between the Company and the new executive director.

In this respect, the ARC shall provide a rationale for the new remuneration taking into account the following factors, among others:

- The applicable law from time to time in effect with respect to the remuneration of members of the Board of Directors who perform executive duties.
- The provisions of the By-Laws, the Regulations of the Board of Directors and the Company's corporate governance policy.
- The principles established in section 2 of this remuneration policy that are applicable to the executive director.
- Market data and guidelines from institutional investors and proxy advisors, as well as information received therefrom during the consultation process carried out by Siemens Gamesa.

The remuneration policy for new appointments establishes the possible co-existence of more than one executive director, each having different duties and responsibilities.

In the event of new non-executive members joining the Board of Directors during the effective period of this policy, the remuneration system described in Table 1 above shall apply thereto.

7. Quantitative limit on director remuneration

The maximum amount of remuneration that the Company can annually pay to its directors as a whole shall be the sum of:

- The amounts for the items indicated in section 5.1 above, which remunerate the CEO for the performance of executive duties.
- An amount of three (3) million euros, approved by the shareholders at the General Meeting of Shareholders, for the directors as a whole in their capacity as such, or such amount as may be approved by the shareholders at subsequent General Meetings of Shareholders.

In the event of cessation in office of the CEO or of any other executive directors, the amount to which they are entitled according to the provisions of their contractual terms and conditions as stated in section 5.4 above must be added to the above-described amounts.

The maximum amount described in this section shall remain applicable during the effective period of this remuneration policy unless the shareholders decide to amend it at a future General Meeting of Shareholders.

8. Effective period of the remuneration policy

If approved by the shareholders at the General Meeting of Shareholders, the Company shall apply this policy of remuneration of directors during the financial years ending in September 2019, September 2020 and September 2021. In accordance with the provisions of the aforementioned section 529 novodecies of the LSC, any amendment or replacement of the policy during the effective period thereof shall require the prior approval of the shareholders at the General Meeting of Shareholders.
